

21 NEW PRODUCTS

Added to the Wellness Works Nutraceutical Supplement Line

NEW DAILY PACK SUPPLEMENTS

- Simplifies daily nutrition supplementation compared to multiple bottles with varied dosages.
- Saves the patient money compared to purchasing pack components individually.
- Single-serving packets afford easy portability for busy individuals and frequent travelers.
- Single canister reduces bottle clutter at home and office, and are more ecologically-friendly than multiple bottles.
- Single product simplifies patient reordering in your pharmacy.
- Improves patient outcomes and instills patient loyalty and confidence in your nutrition therapies and overall pharmacy.
